# Letter of Authorization

for

## Sales of Swissfluid Products

Swissfluid AG, located at CH-5600 Lenzburg comprises a total of 5'000m<sup>2</sup> of production, assembly, testing and storage space as well as offices. We store raw materials and semi-finished items at our facilities, where the products will be processed and completed.

Swissfluid AG is an established and reputable manufacturer of fully lined valves with tremendous personnel experiences in the design, manufacturing and marketing of a comprehensive line of industrial valves and pipeline systems.

Swissfluid's core business is in the lining of valves and pipeline components with engineered plastics, such as PTFE, PFA, PVDF etc. as well as high performance elastomers. Its comprehensive range of products include Diaphragm valves, Butterfly valves (plastomeric & elastomeric), Ball Valves, Sight Glasses, Ball- & Swing Check valves, Cylindrical valves, Inline Sampling valves, Sampling Ball valves & Reactor Sampling Systems as well as pneumatic Actuators with accessories.
